ISTANBUL GELISIM UNIVERSITY

YOK

Council of Higher Education

It is the organization to which colleges and universities are associated. It is the only institution responsible for higher education in terms of functioning, regulations, guidelines, student admission, etc.

Foundation

University

It is a higher education institution established by a foundation. Students benefit from the right to education on scholarship or for a fee.

STATE

University

Unlike foundation universities, they belong to states.

IGU GLOSSARY OF UNIVERSITY STUDENT

PROFESSOR

A faculty member who is at the top of higher education institutions.

ASSOCIATE PROFESSOR

A faculty member who is in the previous stage of being a professor at the university.

ASSISTANT PROFESSOR

A faculty member who is in the previous stage of being an associate professor at the university.

FACULTY MEMBER

Academic personnel employed by universities as full-time, associate, or professors. Faculty members may work in establishments under the Council of Higher Education's supervision, such as universities, colleges, or institutes (YOK).

RESEARCH ASSISTANT

Master's or doctoral student in the first stage of the academic pyramid.

RECTOR

They are the highest administrative and academic authority of the university.

BOARD OF TRUSTEES

The committee is in charge of managing foundation universities.

SECRETARY GENERAL

They are in charge of the university administrative department and are answerable to the rector for its operations.

DEAN

They are the highest authority who manages a faculty in universities.

HEAD OF DEPARTMENT

They are in charge of the department's education and research at all levels in higher education institutions, as well as the regular and effective execution of all connected operations and assuring efficient resource usage.

ACADEMICIAN

Academicians are individuals who work in universities and other similar higher education institutions and carry out teaching, original research, and field-related contributions under the general professional title of academician. Academics with various degrees include translators, subject matter specialists, lesson planners, research assistants (university assistants), lecturers, who are teaching assistants, assistant professors, associate professors,

FORMAL EDUCATION:

Students must take both academic and practical courses in this style of schooling.

SECONDARY EDUCATION:

It is the teaching that takes place outside of the regular hours of primary education (morning, evening, or weekend), which is made available for various programs at higher education institutions. Secondary education is equivalent to primary education.

HYBRID EDUCATION:

It is a system in which some educational activities are carried out entirely face-to-face, other educational activities are carried out entirely online, and some educational activities are carried out using mixed educational practices, depending on the student's request (both face-to-face and via distance education).

DISTANCE EDUCATION:

In this educational paradigm, students complete their coursework online without attending college physically. It can be synchronous and asynchronous. In synchronous distance education, academicians and students are online at the same time.
Videos previously recorded in asynchronous distance education can be

OPEN EDUCATION:

It is the name of a type of education that, in contrast to formal and traditional education, does not require students to travel to a university campus. Instead, interactive lessons are taught using computers in a virtual environment, and participants can watch the lessons again whenever and wherever they like.

IGU GLOSSARY OF UNIVERSITY STUDENT

ASSOCIATE'S DEGREE

These are education programs that train qualified labor force for 2 years, which are affiliated to with the vocational schools of universities.

BACHELOR'S DEGREE

It is a 4-year education program depending on the faculty or college. It can be in the form of formal, open or distance education

POSTGRADUATE EDUCATION

It is higher education that includes postgraduate, doctorate, proficiency in medicine and proficiency in art.

MASTER'S DEGREE

It is the institute program where undergraduate graduates continue their education.

PhD

It is an advanced degree program that lasts at least four semesters for a master's degree or at least six semesters for a bachelor's degree and attempts to present the findings of an original study.

VOCATIONAL SCHOOL

It is a higher education program that includes 2-year associate degree programs at universities.

HIGHER EDUCATION

It is the institution where 4-year undergraduate programs of universities take place. The difference with the faculty is that there are more practice courses.

FACULTY

It is an association with a university affiliation that offers undergraduate instruction, scientific research, and publication with the rectorate of the institution.

INSTITUTE

It is an institution of higher learning that offers postgraduate (master's, doctoral, etc.) education in relevant subjects.

CAMPUS

It is the term used to identify the location of a college or institution. It is a hub for social life where students can find places to hang out and satisfy all of their needs, from academic buildings to libraries, dorm rooms for students to sports facilities.

MIDTERM EXAM

It is the midterm exam applied in universities. It is applied in the middle of the training period. It may differ depending on the university's senate's decision, although it typically affects 40% of the grades.

FINAL EXAM

It is an exam held at the end of the semester at the university. It may differ depending on the university's senate's decision, although it typically affects 60% of the grades.

MAKE-UP (REPEAT) EXAM

It is the name given to the exam taken by students who do not pass their final exam or who are unable to take the exam due to a legitimate reason.

MAKE-UP EXAM

Within one week before the midterm exam date, students who are unable to take the exam due to illness submit an application to the appropriate secretariat with a petition outlining their justifications and reports from state hospitals. Students may take exams between the dates listed in the academic calendar if their reports are approved by the appropriate board of directors. There is no right to a second make-up exam.

ONE COURSE EXAM

Students who have passed or are conditionally passing all courses in the curriculum except for one apply to the dean's office or directorate regarding the petition without registering for the course and are taken to the one course exam from the pertinent course on the dates specified in the academic program, with the except for of the attendance requirement.

CURVE GRADES

The class average is calculated using the exam results that were submitted by every student. Your grade for passing that course is determined by the arithmetic mean score.

SUMMER SCHOOL

To raise a course's grade point average or retake failed courses during the summer semester, students enroll in summer school. They must retake the exam because of the preparation they obtained at the summer school.

ELECTIVE COURSE

These are the courses that the student chooses to take at their discretion from the program's elective course pool.

INTERNSHIP

Before graduating, students must finish this sort of learning, which calls for professional experience, in order to solidify the theoretical information they have learned thus far. In associate degree programs, internships typically last 30 working days over the summer after the second semester. Internships in undergraduate programs last a total of 60 working days, with each stint lasting 30 working days during the summertime immediately after the fourth and sixth semesters, at the earliest.

ACCREDITATION

It is a document that has been issued by a legitimate entity based on the outcomes of assessments made of higher education programs in accordance with previously established academic and quality standards. A total of 65 programs of Istanbul Gelisim University have been found eligible for accreditation by international accreditation organizations such as AQAS, abet, AHPGS and PEARSON. Istanbul Gelisim University, which applied to institutions in Germany, Britain, and the US for accreditation and voluntarily took part in accreditation evaluations from social sciences to engineering sciences, from health sciences to sports sciences, became the institution in Turkey with the most internationally accredited programs.

WEEKEND SCHOOL

These are free speaking classes offered over the weekend at Istanbul Development University by distinguished academics from around the world.

ERASMUS+

A program called Erasmus+ was created by the European Union to promote collaboration between institutions of higher learning. Students from Istanbul Gelisim University can also receive scholarships through the Erasmus+ Program to attend institutions in Europe, and these exchange programs allow the university to host students from all around Europe.
Additionally supports its students, Istanbul Gelisim University offers an Erasmus Internship Program.

MEVLANA

The Mevlana Exchange Program, which includes higher education institutions all over the world, allows for the exchange of students and academic staff with higher education institutions offering education both domestically and internationally.

FARABI

The Exchange Program for Students and Faculty Members between Higher Education Institutions is a program that facilitates student and faculty exchanges between universities and high-tech institutes that offer associate, undergraduate, graduate, and doctoral degrees as well as other levels of higher education. The Farabi Exchange Program strives to make it possible for students or faculty members to continue their studies and training programs for one or more semesters in a higher education institution outside of their home universities.

MINOR

While enrolled in a major program, a minor program enables the student to take a constrained number of courses from a different program, as established by the higher education institution. Istanbul Gelisim University requires applicants with a minimum grade point average of 2.50 to apply to the sub-branch programs chosen for that year by the university senate. The earliest the student can apply is at the beginning of the third and sixth semesters. Students may apply to the minor program if they have successfully completed all of the credit courses required for their undergraduate degree up until the semester in which they submit their application.

DOUBLE MAJOR

A program called a double major enables a student to concurrently pursue studies in two undergraduate or associate degree departments. Istanbul Gelisim University offers a double major program to its students free of charge. Students who enter the 20% success rate in the undergraduate/associate degree program and have a major program GPA of 2.72 out of 4.00 are eligible to enroll for free in the second major diploma program. The two undergraduate or associate degree diplomas are given to students who successfully finish the double major program and are eligible for two of these degrees.

UNDERGRADUATE TRANSFER

It involves moving a student who is enrolled in a university program to a different department or university. Students can switch with the OSYS score or CGPA (General Weighted Grade Point Average) for the year they are enrolled.

STE (Special Talent Exam)

It is an exam held independently of OSYM for departments that require talent in areas such as the School of Physical Education and Sports, Conservatory, Faculty of Fine Arts, etc. of universities. In order to apply for the exams, the candidate must obtain the score result calculated in the OSYM Basic Qualification Test (TYT). (The number of candidates with minimal scores who may apply to these programs is determined by the relevant higher education institution, and it is publicized to the applicants by the relevant higher education institution with press and press organs.) At Istanbul Gelisim University, the School of Physical Education and Sports (BESYO) and Graphic Design departments enroll students with special talent exams.

OBIS (Student Information System)

OBIS (Student Information System) is an information system used by Istanbul Gelisim University to share information such as absenteeism, grade information, and course schedules.

SEM (Continuous Education Center)

SEM is the institution working under the research centers of universities . It arranges training courses that let people specialize in their professional and personal development fields. It offers training to college students, people, or organizations.

SKS (DEPARTMENT OF HEALTH, CULTURE AND SPORTS)

The Department of Health, Culture, and Sports activities are intended to enrich and differentiate the time that students spend at the university, to meet their requirements for food, shelter, healthcare, recreation, and other social and cultural activities, and to aid in their personal growth. The Department of Health, Culture, and Sports is a service unit that attends to the social, cultural counseling and guidance, as well as the sporting needs of students. Student clubs are affiliated with this department, and it also functions as a practice department where studies and applications are made in this area to support education.

STUDENT CLUBS

It is an organization started by a group of students at any university to engage in different hobbies, talking about or researching a specific topic, assisting other students or individuals, growing personally, etc. 20 founding members are student groups that may be established with just one academic adviser, are connected to the university's Department of Health, Culture, and Sports, and plan academic, social, and cultural events.

REGISTRAR'S OFFICE

It is the department that handles tasks like registration, suspending studies, undergraduate transfers, lecture notes, etc. and makes sure that students receive announcements.

DISCIPLINARY ACTION

These are the sanctions imposed on students who violate the obligations placed on them by the laws, rules, and directives both inside and outside the higher education institution, who disobey the requirements, who engage in prohibited behavior, or who act in ways that are not appropriate for a student.

ECTS (European Credit Transfer System)

It covers all aspects of the student's coursework (theoretical course, practice, seminar, individual work, tests, assignments, etc.).

SCHOLARSHIP

Free assistance that pays all or a portion of the tuition for students enrolled in foundation universities.

DORMITORY

Dormitories are organizations that offer accommodation services to students who are enrolled in higher education institutions. It is divided into four types; student dormitories affiliated with the Credit and Dormitories Institution, dormitories affiliated with universities, dormitories affiliated with public institutions and private dormitories.
